

Did you know?

- that female spaces like changing rooms, toilets, refuges, rape crisis centres, hospital wards, religious spaces, school/girlguide overnight trips, and sports are under threat?
- that people who object, or even call for discussion, have been threatened and assaulted?
- that parents who urge caution in medically transitioning their child's body are referred to social services?
- that evidence shows 95% of men who declare themselves to be women have had **NO** medical treatment at all?
- that lesbians and gays are being called transphobic for not wanting to have sex with members of the opposite sex?
